Commuting...

A large portion of residents (84%) in the District of North Vancouver used a car (either as a driver or passenger) to commute to work in 2006. Close to 10% used public transit and 6% walked, biked, motorcycled, took the taxi, or had other methods of getting to work. Seniors (65 years and over) were more likely to use cars as their main mode of commuting and were less likely to use bus, bike, or walk. Youths between the ages of 15 and 19 years old were more likely to take public transit, bike, or walk compared to middle-aged adults and seniors.

- Percent of green commuters, committed to work: 22.2%
- Percent who commuted regularly to work by car: 84.0%
- Most likely to use public transit: Youth, 22.7%
- Most likely to bike or walk: Youth, 16.4%
- Employed labour force who took public transit: 10.3%
- Employed labour force who biked or walked: 5.0%
- Most percent of green commuters: Norgate, 39.5%
